Abstract :

This modest work aims to develop a set of ideas and approaches that try to solve the problems that Bel-Air city in Sétif meets. This reflection mixes the city and the nature while remaining in the optics of sustainable development which relies on the importance of public spaces and favors the gentle intervention mode, and which takes the green axis as an indispensable element with the gardens and pedestrian streets. Thus, centrality was put at the heart of the conceptual phase of the project.

Résumé:

Ce modeste travail vise à développer un ensemble d'idées et de démarches qui tentent à résoudre les problèmes que la cité Bel-Air de Sétif rencontre. Cette réflexion mêle entre la ville et la nature en restant dans l'optique du développement durable qui s'appuie sur l'importance des espaces publics et favorise le mode d'intervention doux , et qui prend l'axe vert comme élément indispensable avec les jardins et les rues piétonnes. Ainsi, la centralité a été mise au cœur de la phase conceptuelle du projet.

ملخص

يهدف هذا العمل المتواضع إلى تطوير مجموعة من الأفكار والنهج التي تحاول حل المشاكل التي تصيب حي بيل إير بسطيف. هذا الانعكاس يمزج المدينة والطبيعة في حين تبقى في بصريات التنمية المستدامة التي تعتمد على أهمية الأماكن العامة وتفضل وضع التدخل لطيف، والذي يأخذ المحور الأخضر كعنصر لا غنى عنه مع الحدائق وشوارع المشاة. وهكذا، فقد تم وضع المركزية في صميم المرحلة التصميمية للمشروع.
