Abstract

This project, with a focus on landscaping, attempts to generate a set of ideas and approaches to solving the difficulties that Gaoua neighborhood faces in the city of Setif. This reflection combines the city with nature while maintaining within the scope of sustainable development, which emphasizes the importance of public spaces and favors moderate intervention, and perceive the greenery as an essential component alongside gardens and pedestrian precincts. The design is supported by real-life examples and careful scientific research of all terms and concepts, resulting in the desired polarization goal.

Keywords : *polarization, landscaping, neighborhood, public spaces, pedestrian.*

Résumé

Ce projet, avec l'intérêt particulier au paysage, tente de générer un ensemble d'idées et d'approches pour résoudre les difficultés auxquelles le quartier Gaoua est confronté dans la ville de Sétif. Cette réflexion associe la ville à la nature tout en s'inscrivant dans le cadre du développement durable, qui met l'accent sur l'importance des espaces publics et favorise une intervention modérée, et qui considère la verdure comme une composante essentielle aux côtés des jardins et des rues piétonnes. La conception s'appuie sur des exemples concrets et sur une recherche scientifique minutieuse de tous les termes et concepts, ce qui permet d'atteindre l'objectif de polarisation recherché.

Mots clé : *polarisation, paysage, quartier, espaces publics, piétonnes.*
